## AMIS Plus Newsletter Nr. 9 – May 2004

Dear Current, Potential AMIS Plus Participants & Sponsors

We are happy to report that the Sponsors' and Participants' Meetings on April 22, 2004 went off without a hitch at the Schweizerhof Hotel in Berne. Results based on AMIS Plus Data, Practical Issues of Data Controlling, Online Data Analysis and the Need of a National Registry were just some of the topics presented to the sponsors and participants. Thank you once again to all our guest speakers. We received a lot of positive feedback.

The results of the treatment of our patients with acute coronary syndrome showed that guidelines are being followed properly, standards are high and efforts to learn and improve are ongoing. However, our patients are still coming late to hospital and this delay has remained unchanged since 1997.

We are preparing the modifications of the AMIS Plus Questionnaire for next year. If you have some suggestions, requests or queries, please don't hesitate to contact us.

Sincerely yours

For the Steering Committee

For the Data Center

Prof. Paul Erne, MD  
 President

Dragana Radovanovic, MD  
 Executive Manager
