

AMIS Plus Newsletter No. 65 – June 2022

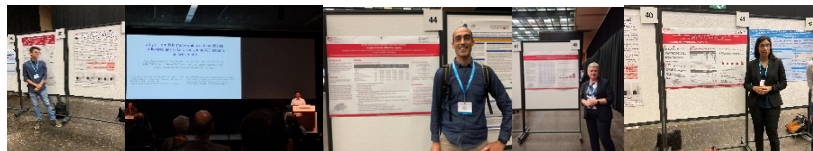

Dear AMIS Plus Participants & Sponsors

We would like to express our sincere gratitude to our hospital participants for your continued support over the past years. We are very grateful that we can continue to count on your support in the future.

AMIS Plus at SSC

Activities have been a little slow in these recent corona years but now AMIS Plus is back on track with 5 presentations at the Swiss Society of Cardiology Congress. The following topics were presented:

- Sex differences in acute coronary syndromes – signs of improvement
- Treatment and outcome of patients with acute myocardial infarction and chronic lung disease
- Acute myocardial infarction and work inability: insights from the AMIS Plus Registry
- Bradycardia and acute coronary syndromes: analysis on outcomes on 51001 patients enrolled in the Acute Myocardial Infarction in Switzerland Registry
- 20-year trends in the prevalence of cardiovascular risk factors and outcomes among young adults (<50 years old) hospitalized with acute coronary syndromes in Switzerland

Thabo Mahendiran was awarded Best Abstract 2022 for his work regarding CV trends in young adults!

INVITATION to OPEN DOOR DAY

Thanks to Prof. Milo Puhan and previously Prof. Felix Gutzwiller, the AMIS Plus Data Center is housed at the Institute of Epidemiology at the University of Zurich and will have its own booth with a quiz on myocardial infarction. Other topics covered are travel health, health literacy checks and quizzes to name but a few. There will be activities for children, prizes to be won as well as talks in German on the pandemic from different points of view and much, much more. We look forward to seeing you there. You can find the program in the enclosed flyer or at www.ebpi.uzh.ch.

Please also find enclosed a paper entitled “Heavy drinking habits are associated with worse in-hospital outcomes in patients with acute coronary syndrome: an insight from the AMIS Plus Registry” by Tersalvi et al. *Cardiology* 2020;145:757-765.

Yours sincerely
